Nitish K. Chauhan

I am a professional Full Stack Developer and Cloud Engineer, with a proven track record of delivering interactive Web Applications. I primarily work with the MERN Stack which allows me to develop and address various real world problems. I am currently seeking opportunities where I can both contribute my existing skills and further enhance them.

PROJECTS

Ecom Dashboard Manager - [MERN STACK]

This project was developed for a freelancing gig that necessitated a scalable E-commerce Dashboard manager. The Node.js backend enables the client to view, add, edit, and delete products, as well as manage inventory and send newsletters to their users. The responsive React.js frontend provides various visual graphs, KPIs, and other tools to analyze sales and product data, facilitating better business decisions.

Mr. Oadn Blog Manager-[MERN STACK]

This marked my inaugural project employing the MERN stack. The backend was constructed utilizing bcrypt.js to hash user passwords, providing diverse API endpoints for adding, editing, and deleting posts, users, and tags. Tailwind CSS was employed for swift and responsive UI development.

Silk Store - [ReactJs]

A React.js frontend constructed with Tailwind CSS. The UI is responsive and adept at managing global state changes such as user sessions, cart contents, and wishlists. Users can log in, add reviews, track their orders, and raise tickets, all within the seamlessly streamlined checkout process.

EDUCATION

- Lovely Professional University, Punjab — BCA
- Baba Bhim Rao Ambedkar Inter College, Uttar Pradesh — Higher Secondary
- St. Paul's Higher Secondary School, Mizoram — High School

EXPERIENCE

Utho Cloud (Cloud Engineer) - 2022 - 2023

In my role as a Cloud Engineer at Utho, my primary responsibility was troubleshooting our clients' web applications and cloud servers. Additionally, I played a secondary role in coordinating with the development team and aiding them in frontend enhancements for utho.com.

Lenskart (Public Relations Partner) - 2021 - 2022

As a Public Relations Partner, my primary responsibility was addressing customer queries arising in our offline store channels and devising alternative solutions to maintain Lenskart's customer relations.
